OBJECTIVE

To leverage my passion for data analysis and problem-solving skills. As a final-year computer science student with aspirations of becoming a data scientist, I aim to contribute to diverse data analysis projects, enhance my expertise in statistical analysis, predictive modeling, and data visualization, and grow under the guidance of industry experts in a collaborative environment.

EDUCATION

BSC in Computer Science | University of Witwatersrand

2022-PRESENT

I have completed Mathematics 1 and 2, as well as Economics 1 and 2, which have honed my problem-solving and analytical skills. My Computer Science modules have provided me with a strong foundation in algorithms, databases, application development, and multiple programming languages. They have also given me a unique and scientific perspective on the rapidly evolving world of technology

Matriculation | Masibambane College

2021

I completed my Matric with 5 distinctions in Mathematics, Physical Sciences, Life Sciences, Geography and Life Orientation. .

EXPERIENCE

Private Tutor | Newtons Academy

2024

I tutored high school students in mathematics and physical sciences, which improved my communication skills and strengthened my ability to explain complex concepts in a clear and relatable manner.

Assistant Tutor | Gozho Maths Clinic

2021 – PRESENT

I tutored high school students in mathematics.

SKILLS

- **Strong Communication:** Tutoring and collaborative work have enhanced my ability to communicate technical concepts to diverse audiences.
- **Adaptability and Continuous Learning:** Passion for exploring emerging technologies.
- Analytical Problem-Solving
- Programming Proficiency
- Web Development Skills
- Data Handling and Analysis
