PROFESSIONAL SUMMARY

Final-year Computer Science student passionate about building full-stack applications, software design, and agile development. Experienced in React, C#, Node.js, Firebase, SQL and object-oriented principles. Seeking opportunities to apply my skills in collaborative, fast-paced environments while continuing to grow in modern software engineering practices.

EDUCATION

BSc Computer Science, University of the Witwatersrand

2022 – Present

- Completed modules: Algorithms, Data Structures, Machine Learning, Software Design, Parallel Computing, Computer Networks, Mobile Computing, Databases.
- Supporting studies: Mathematics I & II, Economics I & II
- Technologies: Python, Java, C/C++, C#, SQL, HTML/CSS/JS, PHP, Node.js, Express

Matric, Masibambane College

2021

- 5 Distinctions: Mathematics (90%), Physical Sciences (87%), Life Sciences (90%), Geography, Life Orientation

PROJECT EXPERIENCE Restaurant Staff Dashboard (2025)

React + Firebase web app for restaurant staff management

- Live tracking of orders, table requests, menu inventory
- Real-time updates using Firestore subscriptions
- Highlights urgent waiter requests

- Built with responsive, theme-aware layout for staff usability [live demo](#)

Customer Menu App (Mobile)

- Built with React Native + Firebase for dine-in ordering
- Customers browse menu items, view details, select quantities, and place orders
- Features table number entry, confirmation screen, and multi-item cart
- Mobile-friendly UI with clear product cards and allergen visibility

Matchday (2025)

Full-stack web app for sports facility booking with:

- Google Sign-In authentication (Firebase)
- Admin dashboard and real-time data views
- Deployed to Azure [Live Demo](#)

GeoFinder (2025)

React-based web app fetching data from REST Countries API

- Displays bordering countries, flags, population, etc.
- Responsive UI with dynamic search [Live Demo](#)

GMC Tutoring Site (2024)

Landing page for a tutoring business

- Clean, mobile-responsive UX
- Embedded contact/social media links [Live Site](#)

Android Calculator (2024)

Fully functional calculator app

- Built using Java and Android Studio
- Emphasis on usability and layout design

EXPERIENCE

Private Tutor, Newtons Academy

2024 – Present

- Tutored high school learners in Mathematics, Physical Sciences and IT
- Developed custom learning aids and analogies to simplify abstract concepts
- Strengthened communication and instructional skills

Assistant Tutor, Gozho Maths Clinic

2021 – 2023

- Conducted group sessions in high school mathematics
- Helped students improve problem-solving approaches and exam preparation

Tech Assistant , Vuyoswebdesign

2025

- *Built the cart and wish list functionality for ecommerce app*

TECHNICAL SKILLS

Languages: Java, Python, C/C++, C#,PHP, JavaScript, SQL, HTML,CSS .

Web & Tools: React, Node.js, Express.js, Firebase, Android Studio, Git, Azure

Concepts: Object-Oriented Design, Agile Development, REST APIs, CI/CD Pipelines, Software Architecture

Data/AI: Data Analysis, Naive Bayes, Clustering, Regression, Classification, Parallel Programming

SOFT SKILLS & OTHER

- Strong Communication and Collaboration
- Analytical Problem Solving
- Continuous Learning and Adaptability
- Passion for Clean Code and Scalable Systems
- Adaptability and Continuous Learning
